1. The background

Now Thailand holds a prominent position as a manufacturing base especially in Southeast Asia in which auto manufacturers and electronics manufacturers from around the world build factories. At a time, along with the popularization of smartphone, the E-commerce market shows remarkable growth and trade among individuals as represented by market place merchants assists the number of small parcel delivery to increase.

Today, we established the joint venture with combining nationwide transportation network of SCG with TA-Q-BIN Know-How YAMATO group has fostered in Japan and started TA-Q-BIN service in Thailand. We are willing to contribute to realize more convenient and more comfortable society for both corporations and individuals through the expansion of small parcel delivery network and the further activation of the small parcel delivery market where demand will increase in the future.

In addition, we are willing to contribute to expand Japanese food boom in Thailand and sales channels for Japanese companies through the start of the International Cool TA-Q-BIN service which enable agricultural and fishery products in various regions of Japan to be carried out to the final destinations.
